

# BULK FLOW CONVEYORS

## High-speed movement of bulk packages within operations.

The core of warehouse, distribution and sortation operations, transport conveyors efficiently move packages from one point to another, with transitions onto slides or chutes. Versatile applications, including bulk flow, oversized/irregulars, smalls, incline/decline, and many more. Multiple belt choices, widths and speeds, to match the operation.

|                      |                                       |
|----------------------|---------------------------------------|
| <b>Length</b>        | 25-150 ft.                            |
| <b>Belt Width</b>    | 24, 30, 36, 42, 48, 60 in.            |
| <b>Load Capacity</b> | 50 lbs./linear ft.                    |
| <b>Rated Speed</b>   | Up to 200 fpm; drive size up to 20 hp |
| <b>Structure</b>     | Weld-up                               |

### KEY FEATURES

1. Rated for speeds up to 200 fpm and drive sizes up to 20 hp
2. Available in nominal belt widths of 24, 30, 36, 42, 48, 60 in. and customizable up to 150 ft. per drive
3. Weld-up structure with steel slider beds ensures reliable support for heavier packages in demanding environments

### OPTIONS

- Optional heavy-duty weld-up assembly construction
- Customizable up to 150 ft. per drive
- Optional carrying rollers and/or underside rollers
- 10-gauge slider bed option for heavier packages
