

GRAVITY ROLLER LOADERS

Optimize floor space and improve loading throughput.

Conveyor designed to optimize available dock floor space and provide maximum flexibility for loading operations of flat floor trucks, trailers and freight containers up to 53 ft. Compact, nesting roller conveyor is manually extended to adjust to fit application and leverages natural gravity flow (1.5 degree slope) to ease package movement and improve volume throughput.

KEY FEATURES

1. 1.5 degree slope for natural gravity flow
2. Extends to length of 50 ft.
3. Retracts to length of 9 ft.
4. 50 lbs./ft. load capacity
5. Available in 7-stage configurations

OPTIONS

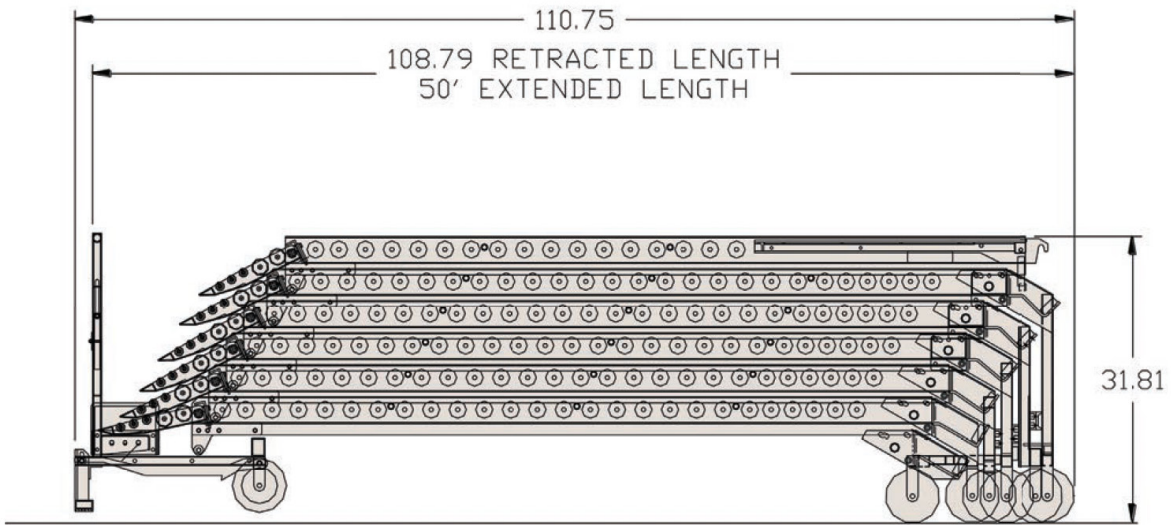

- Option to integrate with a single-stage belted conveyor to feed the gravity roller loader and increase transfer rates
- Roller conveyor configuration from 3-stage up to 7-stage
