

# GRAVITY ROLLERS

## Designed for high performance and maximum longevity.

Roller conveyors designed to leverage natural gravity flow to move packages with ease. Heavy duty steel or phenolic roller construction, with custom pull-out extensions to provide variable lengths to fit the application.

<b>Length</b>	3–60 ft.
<b>Width</b>	36–48 in.
<b>Rollers</b>	1.94 in. diameter; PVC or 16-gauge steel
<b>Structure</b>	Weld-up

### KEY FEATURES

1. Rollers are heavy duty, with sealed bearings to minimize maintenance and maximize longevity
2. 36 in. or 48 in. wide irregular conveyors, with single or multiple roller configuration, transport large or odd size packages for loading
3. Heavy-duty weld-up assembly construction
