

KNOCKDOWN CART

Ship five in the space of one

Reduce shipping costs and retain capacity with this innovative cart. Knock them down for shipping, and reassemble them upon arrival with just hand tools.

With just a few steps, 20 knockdown carts can be ready to ship in a single 40-foot container.

Thick-gauge steel, additional strengthening ribs, strong welds, premium hardware and a shot-blast/powder-coat process ensure the carts last and work efficiently for years.

KEY FEATURES

1. Each cart knocks down to a fifth of its size and can be stacked three to five high for shipping
2. Towbars prevent damage from jackknifing and enhance durability
3. Roll-on/roll-off capability allows easy maneuverability

OPTIONS & ACCESSORIES

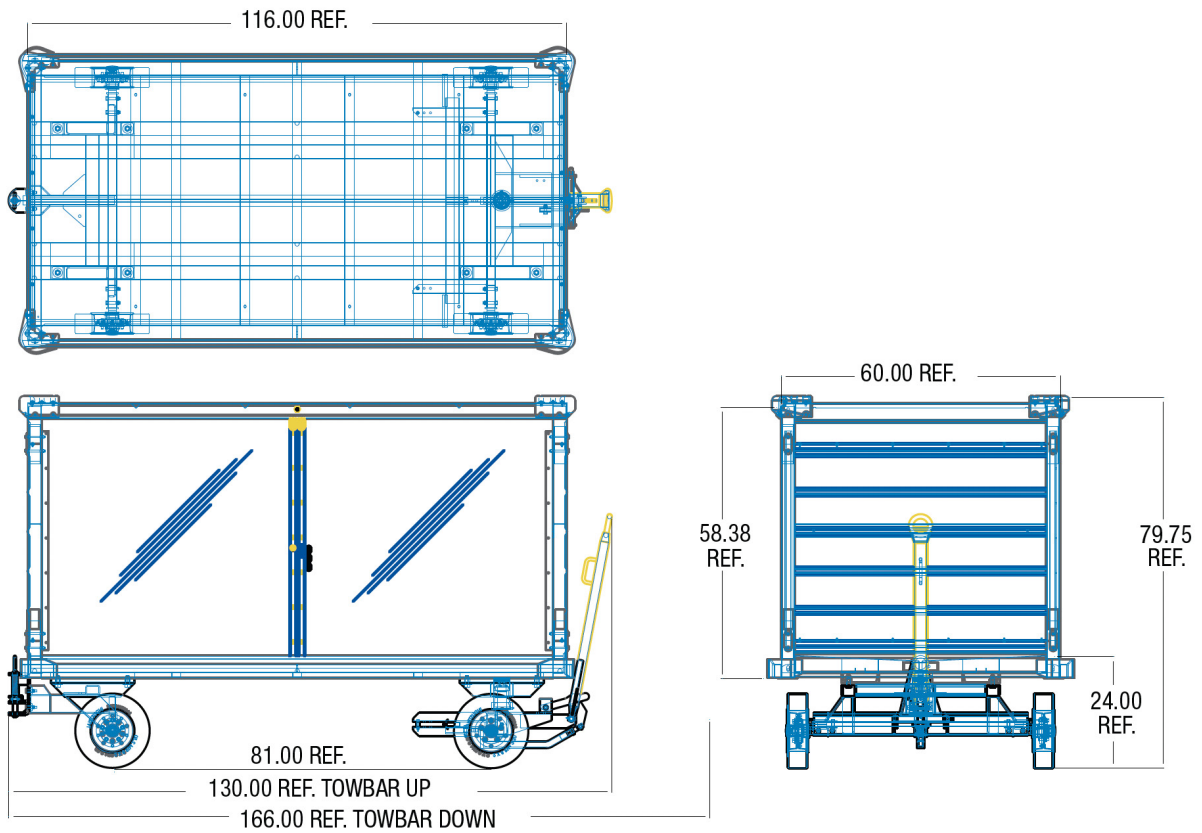

- Customizable to meet requirements including: center shelves, back walls and curtain assemblies in baggage or cargo configurations
- Choose from rigid mount, shock mount or torsion axle configurations to suit any environment
