

MULTI-STAGE EXTENDABLE CONVEYOR

Accelerate high volume loading and unloading.

Conveyors designed to easily extend into trailers, trucks, vans or other transport vehicles to increase speed of product transfer at the door. Maximum extension with minimum retracted footprint to optimize floor flow space. Automation aids extension and height adjustment to maximize operator load and unload rates.

KEY FEATURES

1. Variable speed bi-directional belt for load or unload operation
2. VFD controlled 3HP main motorized pulley for high speed operation
3. Hydraulic supports adjust work height to load/unload all vehicle sizes
4. Powered boom extension to work comfortably throughout length of vehicle
5. Boom controls on both sides of end boom
6. Front safety bumper automatically retracts on contact

OPTIONS

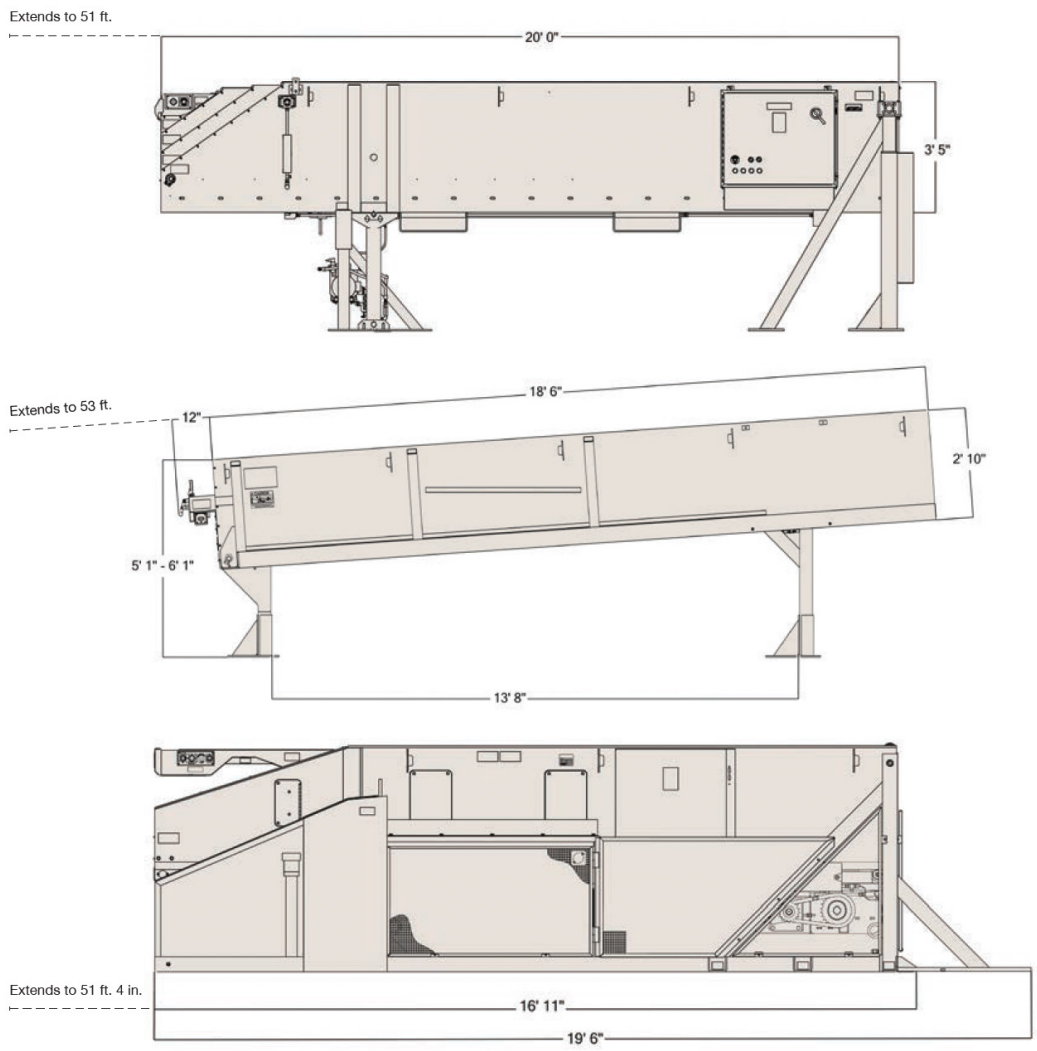

- Handrail/side pan option to help contain package movement
- Base stand for pit installation
- Electrical panel location options: LH, RH, rear, remote
- Conveyor and chute options for transition on/off multi-stage conveyors
- Additional multi-stage conveyors available

SPECIFICATIONS

Retractable Length	13.7–23 ft. (4–7 m)	Load Capacity	50 lbs. (23 kg)/linear ft.
Extendable Length	51–53 ft. 9 in. (15.5–16.4 m)	Belt Drive	8 in. diameter, 3 hp motorized pulley
Stages	3, 4, 5 or 6	Telescoping Speed	40–60 fpm (12–18 m/min)
Belt Width	21–29 in. (52–74 cm)	Rollers	1.94 in. (5 cm) diameter (gravity load only); PVC
Belt Direction	Unload only, Bi-directional load only (gravity)	Variable Transition Height	Options from 60–108 in.

A world leader in airline, air cargo and material handling equipment for over 45 years.

FAST Global Solutions designs, builds, installs and services an expansive portfolio of robust, ruggedly-built, dependable equipment for today's global commerce operations. To learn more, contact the knowledgeable and experienced FAST Team.
