

OPEN CART

Combine high capacity with easy loading

Heavy-duty open carts designed for transporting large loads with enhanced maneuverability, durability, and safety features. Built with reinforced steel construction for rigorous daily use in industrial environments.

KEY FEATURES

1. Reinforced 12-gage steel construction for years of rigorous daily use
2. End points can be fixed or removable for operational flexibility
3. Anti-friction bearings are permanently lubricated and sealed to keep out contaminants and reduce maintenance time
4. Fifth-wheel steering with full 360-degree rotation maximizes maneuverability
5. Towbar-actuated front-wheel brakes for increased safety

OPTIONS

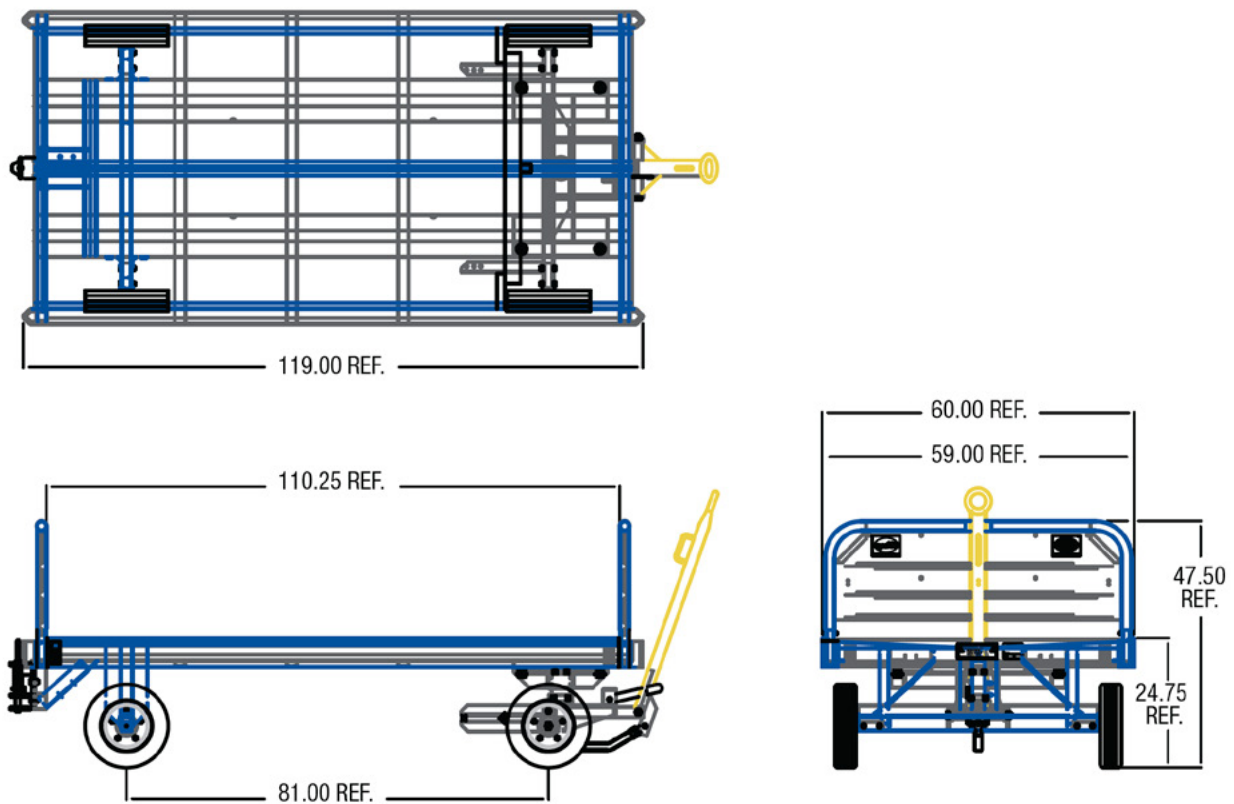

- Rigid mounted or torsion axle running gear styles offer choices to suit each environment
- End and side panels can be fixed or removable, depending on the best option for your site
- Optional tarps and holders cover the cart for protection from the weather
- Hot-dip galvanizing provides additional corrosion resistance
