

PORTABLE BELTED CONVEYOR

This equipment offers flexibility, ease of movement, and quick setup, making it essential for efficient handling operations.

Specifically designed for transporting goods over a short distance either for loading or unloading applications. Adding the optional portable gravity section to this unit adds even further flexibility and increases the overall length and ease of operations. The lift gate is operator friendly to lift and adjust for different elevations and allows for egress when needed. The versatility in length, setup, and mobility extends its applicability beyond parcel handling to non-parcel sectors.

KEY FEATURES

1. Lift gate for egress access
2. Left-hand and right-hand configurations to the panel; motor can be mounted on either side
3. Removable side pans
4. Bi-directional belt
5. Heavy duty swivel locking casters for easy maneuverability

OPTIONS

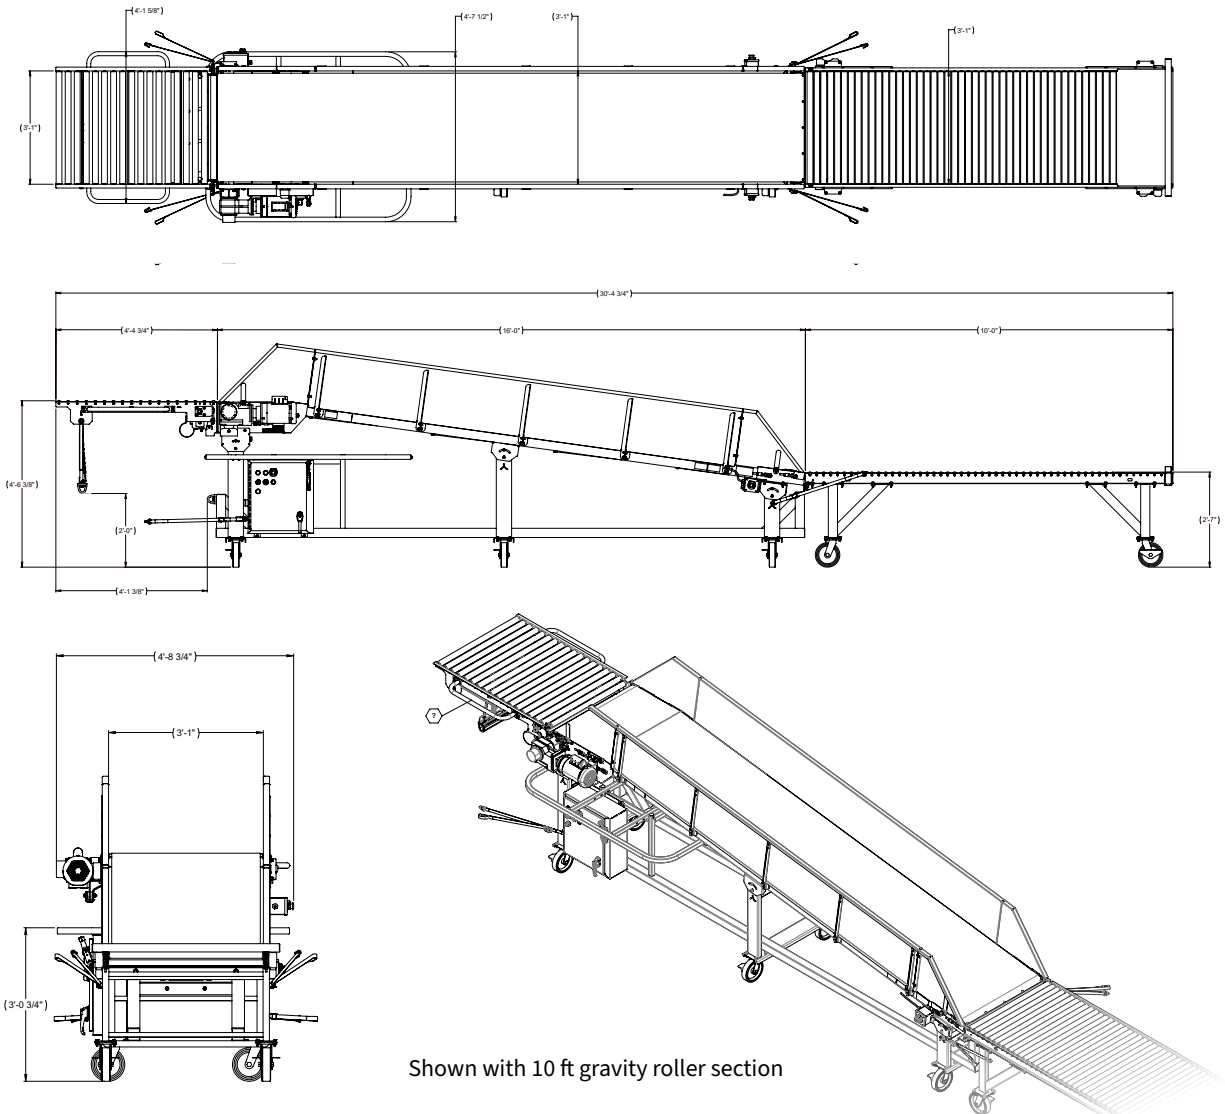

- Optional gravity roller section in 5 ft. or 10 ft. options
- Belt speed options up to 80 fpm
