

SORTER DESTINATION CHUTE

Easily singulate package flow for destination determination.

Designed to integrate into a sorter conveyor system, providing separate gravity flow channels directed towards destination sorting bins or other accumulating equipment. Customize the number of channels and size to match the operation's sorting system.

KEY FEATURES

1. Durable, smooth galvanized steel surface
2. Integrated side panels to manage separate channel paths
3. Extension at bottom of chute
4. Constructed of heavy-duty steel

OPTIONS

- Optional heavy-duty bolt-up or weld-up assembly construction
- Optional low-friction material lining for increased package flow rate
