

SORTER-TO-DOOR CHUTE SYSTEM

Easily transition from bulk flow to singular package movement.

System of chutes to transition packages from the feeding conveyor or sorter, to the loading equipment for trailers and delivery vehicles. Ideal use when incline exceeds +8 degree maximum guideline for herringbone or other gravity loader options.

Material	Concave heavy-duty steel bed
System	Straight incline and 90-degree curve
Side Panels	12–24 in.
Structure	Weld-up

KEY FEATURES

1. Heavy-duty steel construction
2. Deep trough chutes to center and singulate packages
3. 12–24 in. side panels available to help contain product movement
4. Customized widths, lengths, angles and elevations to match conveyor or sorter system

OPTIONS

- Option to line with low-friction material to increase rate of product flow
- Option to integrate 12–24 in. side panels
